Okay, let us get at the facts: There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I

have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

Dear Shantanu,

Thank you for your interest in rejoining the Liberal Democrats. Unfortunately in final checks before opening your membership it was ascertained that a previous application was rejected in June 2024. This continues to be in force, therefore as a result, this newer membership application has also been declined.

I attach a copy of the email confirming this decision to you on 23 June 2024 at the end of this email.

Your payment of £15 made on 10 March 2025 will be automatically returned to you. Please note this may take up to 10 working days to be processed.

Kind regards,

Subject: Membership of the Liberal Democrats in England

To: <shantanupanigrahi@yahoo.com>

Hello Shantanu,

I am writing today regarding your application to join the Liberal Democrats. As part of the Federal structure of the Liberal Democrats, any application to join is covered by one of the three State Parties, and in this case it would be the English Party.

I'm the Vice Chair of the Liberal Democrats in England, and Chair of the Regional Parties Committee, which has delegated responsibility for Membership matters.

The RPC has considered your application for membership and has voted to reject it.

Your application has therefore been refused. This is on the basis that:

you are a member of a Political Party other than the Liberal Democrats

your values may not align with the fundamental values and objectives of the Liberal Democrats

your admission to the Liberal Democrats in England would be likely to bring the Party into disrepute

You have the right to appeal this decision to the English Appeals Panel. Any appeal must be made within 14 days and on the correct form.

For the avoidance of any doubt, you are not currently a member of the Liberal Democrats, or any local, regional, or state party of the Liberal Democrats.

Best wishes,

Lucas North

Vice Chair, Liberal Democrats in England

**Case #32**

BEFORE THE ENGLISH APPEALS PANEL

SHANTANU PANIGRAHI

APPELLANT

And

1) NEIL CHRISTIAN, AS FEDERAL COMPLAINTS PROCESS LEAD

ADJUDICATOR

2) LUCAS NORTH, AS REPRESENTATIVE OF ENGLISH PARTY'S

REGIONAL PARTIES COMMITTEE

RESPONDENTS

INITIAL CONSULTATION & DETERMINATION

NOTING THE FOLLOWING:

1. That I have been assigned as Case Manager for Case 32 by the Chair of EAP under EAP Guideline 3.4.

2. That this is my determination, in consultation with the other officers, under 3.6a of the EAP Guidelines.

3. The appeal relates to a rejection of membership, but specifically lists itself as being against the decision of the Lead Adjudicator of the Federal Complaints Process to label the appellant as a 'Vexatious Complainant'. The English Party has been added as a respondent due to the inferred appeal against the Regional Parties Committee to reject membership.

4. The Federal Complaints Process is not a function of the English Party and so the Lead Adjudicator's decision cannot be considered one which specifically relates to the English Party.

5. Despite the adding of English Party as a respondent, the case still focuses entirely upon the argument related to the Federal Complaints Process decision to label appellant as a vexatious complainant. It advances no grounds as relates to English Party, and thus nothing which can even be clarified or sought to expand upon.

THEREFORE, IT IS MY DECISION AS CASE MANAGER THAT:

1. The English Appeals Panel has no standing to rule on or comment on Federal Complaints Process procedures in this matter. The Federal Complaints Process has their own internal Appeal Process which does not involve the English Appeal Panel

2. That as the appeal advances no argument outside of its issue with the Federal Complaints Process decision, then regrettably there is no case that can be heard by EAP.

3. The appeal is therefore dismissed and will not proceed.

Signed: Daniel Jones  
 Vice Chair, English Appeals Panel  
 Dated: 6th March, 2025

I can tell you that I agree and I also think the international law system is flawed in that there are no effective enforcements in place to protect states from aggression. I do think a change is necessary in the UK constitution, reforming the NHS, the economic crisis of living etc

Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook.

No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is

of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

Londani, There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

Yu Ho Eugho Lau, There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around

the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

I can tell you that I agree and I also think the international law system is flawed in that there are no effective enforcements in place to protect states from aggression. I do think a change is necessary in the UK constitution, reforming the NHS, the economic crisis of living etc

Hi Shantanu,

Thank you for your response.

I'm glad to hear that everything's fine and you need assistance regarding your Stripe account, "The Conservative Libertarian Publications Limited (acct\_1Q[redacted]bu)" and "The Conservative Libertarian Society (acct\_1J[redacted]ni)".

As you have mentioned and I've checked, the Stripe accounts which you're concerned about are linked with the email address, sh[redacted]hi@ya[redacted]oo.com (redacted for security purposes).

In order to assist you with those accounts, I'd request you to reach out to log into that Stripe account using the above mentioned email address through the URL below, and resend your request. You may include this ticket number 20681161 so we can pick up where we left off:

<https://support.stripe.com/email>

Sending a message from that interface while logged in will securely connect your message to the account you're writing in from. For your own security, we need to be certain that we're communicating with the legitimate account holder for certain issues. This will also help us access the relevant account to provide the support you need.

Moreover, the email address, sh[redacted]00@gm[redacted]il.com, from which you've reached out to us is linked with a Stripe account, "The Conservative Libertarian Publications Limited" (acct\_1P[redacted]06). This account seems to have been deleted. If you want to reopen this account, please confirm by replying to this email. We'd be more than happy to assist.

I'll be looking forward to your response.

Regards,

Ranjan

Thanks for this.

I worked for a British MP so I know the problems at play in the system, and I see why Reform UK are doing so well over here right now.

I cannot help but think that the Conservative Party in the UK has dug its own grave and has been buried alive, trying to get out of the rut.

Very sad but, were I to return to politics right now, I would not hesitate to join Reform UK.

Thanks for your time.

Kind regards,

Mark

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

Thanks for this.

I worked for a British MP so I know the problems at play in the system, and I see why Reform UK are doing so well over here right now.

I cannot help but think that the Conservative Party in the UK has dug its own grave and has been buried alive, trying to get out of the rut.

Very sad but, were I to return to politics right now, I would not hesitate to join Reform UK.

Thanks for your time.

MAKING IT UP AS ONE GOES ALONG

[Edited: 10.28 am, 7 March 2025]

Words are just descriptive-expressions that we have inherited from past generations of human beings. They are open to different interpretations as suits a particular *raison d'être*. When one is living in the freedom of satya-advaita yoga, one necessarily makes up new words as one goes along or adapts old words to meet a particular requirement in terms of what one is trying to express. It is in this context that my books are to be read and the readers have to form their own opinions on whether I have been crystal clear on what I have thought about relating to my experiences of life over the past 27 years. I am of course open to providing any clarifications needed on the basis of my actions at any particular point in time and how I have expressed these in the 345 eBooks that I have so far written in the series under the theme, 'The Allurement of Reality'. But I hope that no such clarifications would be necessary or me be called upon to answer: I wish to let my books do the talking, hence I am editing this post now that I have some free time. This is because I am not a very good speaker in public, and even in the creation of Videos that I attempted over the past year to develop my websites. I am good at writing. For I allow truth to just flow into my mind at the appropriate time and this creates the works that I have been producing.

So in what context am I using the words Samadhi and Mahasamadhi. I wish to make it clear at this point in time. For me Samadhi seemingly started on completion of my Book Truth-accommodation (Satya-advaita) and I started writing the book 'Post-realisation Musings'. They were semi-conscious assessment of the knowledge that I had gained and the missing data that I needed to be searched for still in order for me to arrive at a comprehension on the Conception of Reality, the first book under the theme 'The Allurement of Reality' that I had started writing in 2004 when I came out of the mental hospital for the first time. It grew and grew into what it the Realisation is today. I had tried to consider numerous times during these years that I had had total Realisation, even my elder sister in India had pointed to this in one of her utterances to me, but it turned out not to be the case. When can Realisation be complete when one does not know what there is to Realise. It had to be awaited with patience. And I formulated a plan of self-discovery to try and get to it. This was to have a framework where I hypothesised that everything in the universe is pre-ordained and pre-orchestrated, so there was God having set the universe in motion in a particular manner; the best bhakti that I could approach God with was to discover my own fate within the Grand Design, and this was latterly over the period 2020 or so done through losing all attachments, and acting nonchalantly, spontaneously and unpremeditatedly in all my moment by moment actions as the only karma that I would engage in that could with certainty be then described as sanatana dharma, that is to say karma in sanatana dharma.

Mahasamadhi is total Realisation when one does stop one's karma in sanatana dharma and lives in Yoga-ananda, the yogadaan emanating from one's dedication to the comprehensive approach to yoga.

When I seemed to be surviving the persecution that was vitriolic against me in conducting myself in this manner I was picking up evidence of Dharma Rakshati Rakshita as being the eternal law of the universe, and this has not changed at the moment that I first wrote this posted account at 10.37 am on the 12 of October 2021.

General News refers to a broad category of news that encompasses a wide variety of topics, including local, national, and international events. Unlike specialized news, which focuses on specific sectors like sports, entertainment, politics, or finance, general news covers all areas of life, such as current events, breaking news, public affairs, social issues, weather, and more.

Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that.
